

How to Practice Q&A with ELI

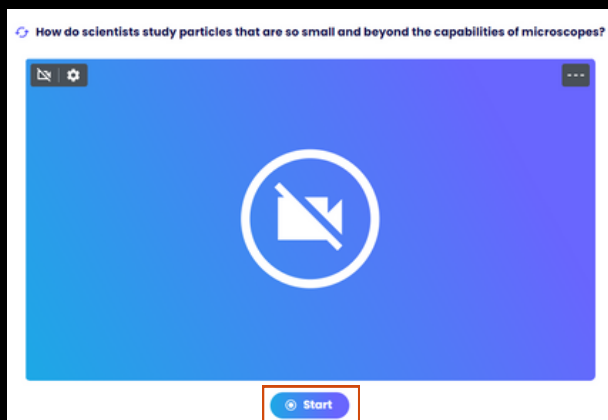

1

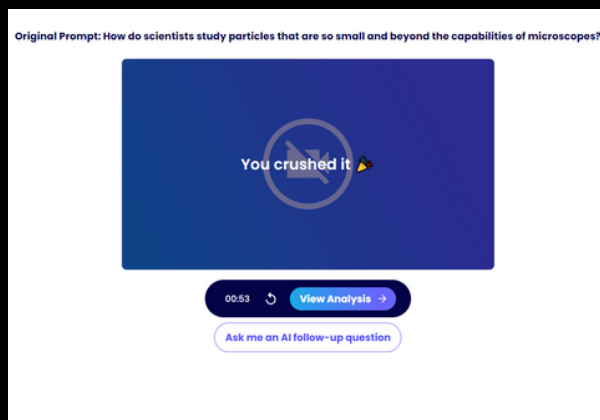

When reviewing analytics on a video, go to the Coaching tab on the left hand side. Scroll down to the section that says, We have a few follow-up questions for you. Click the Practice button to begin.

2

The question will appear at the top of the screen. Press Start to begin recording your response. When finished, press Done.

3

After you've recorded your response, you can select View Analysis to see ELI's feedback or Ask me an AI follow-up question to continue Q&A practice.
